FOR IMMEDIATE RELEASE

**POMA & SONS MAKES INAUGURAL APPEARANCE AT
WORLD OF CONCRETE SHOW IN LAS VEGAS**

Las Vegas, NV – Poma Construction's Railing Division, the Palm City, FL-based manufacturer of handrails, stair rails, custom railings and metalwork, made its inaugural appearance at the World of Concrete show and exhibition here Tuesday.

“This is a tremendous opportunity for us,” said Justin Poma, General Manager at the exhibition, January 22nd-January 25th. “Our railings can be seen on major projects throughout the world, and we feel that this show will be a significant element of our marketing plan. We look forward to building long-term relationships with all the contractors, architects and engineers we meet here.”

Poma Construction's pioneering railing system incorporates a patented stainless steel insert secured with an epoxy or acrylic adhesive that is impervious to water and does not deteriorate over time.

“While the original Poma Corporation and its assets were sold to an unaffiliated company, my father's work while he was the licensed contractor/qualifier of Poma Aluminum Steel and Fabricators, Inc., and Poma Corporation can be seen at The Ritz Carlton in Maui, the Atlantis Resort in the Bahamas, Mar-A-Lago in Palm Beach, Universal in Orlando, and various Disney resorts and projects,” Justin Poma added. “He has been in the business for 35 years, together, and we are continuing a tradition of quality and innovation.”
